

ABOUT US

COLIN LAWSON Transport

- Formed in 1997 to meet the needs of the UKCS oil and gas industry, based in Aberdeen, the energy capital of Europe
- One of Aberdeen's largest and most experienced haulage companies. We specialise in the energy sector, utilising our extensive fleet of vehicles, which is the most modern in the region
- Our competent and long-serving team understand the importance of providing a quality service 24/7, 365 days a year
- We operate a fully-integrated transport and haulage service, with an emphasis on safety, reliability, efficiency and value to our clients

"We've used Colin Lawson Transport for many years for the transportation of our specialised equipment and they continue to deliver a safe, reliable and professional service that fully meets both our and our clients needs."

GENERAL HAULAGE

COLIN LAWSON
Transport

- Our fleet of vehicles of all sizes transports goods and equipment throughout the UK and across Europe
- Colin Lawson Transport is an accredited carbon neutral company
- We retain and use vehicle telematics systems allowing us to minimise our environmental impact
- We continually monitor HSEQ policies to ensure best practice at all times

"Our business needs to react to customers' demands at any time of day, seven days a week, so it is important to us that our haulage provider has the ability and flexibility to react to short lead times. Colin Lawson Transport delivers against our expectations 365 days a year."

THE ENERGY SECTOR

COLIN LAWSON Transport

- We excel in the transportation of goods for the global energy industry specialising in abnormal loads and the carriage of hazardous goods
- We pride ourselves in the retention of key clients
- We are at the forefront of the specialised logistics required by the UKCS offshore abandonment and decommissioning sector

"The nature of EnerMech's business involves the transportation of oilfield equipment globally, and our experience with Colin Lawson Transport, particularly its customer-focus, has been positive throughout."

HEAVY HAULAGE

COLIN LAWSON
Transport

- Our heavy haulage fleet is one of the largest in Scotland with a carrying load capacity of up to 250 tons
- We retain specialised self-propelled modular transport (SPMTs) to carry any specialised loads
- We offer comprehensive support services fully compliant with the movement of heavy goods and equipment

"Colin Lawson Transport delivers a safe, competent and high-quality range of services for heavy haulage movements, including the preparation of risk assessments and project management from start to finish."

OTHER SERVICES

COLIN LAWSON Transport

- Warehousing and yard facilities for all types of equipment, with labour, forklift and crane availability in a secure environment
- Extensive range of trailers to cover every transport requirement
- We operate a fleet of HI-AB trucks along with access to mobile cranes of all sizes
- We provide contract lifting services with full insurance and paperwork provided

"The logistics and regulatory demands associated with wide-load transportation require thorough attention to detail and meticulous planning and co-ordination with third parties. Our on-going relationship with Colin Lawson Transport satisfactorily delivers on all aspects associated with hazardous and abnormal load movements."
